& Space Clearing Certification Workshop
September 21-25, 2007
Natick Ma.**

with Christan Hummel

*Oh Thou Who giveth sustenance to the Universe,
From whence all things proceed, to Whom all things return,
Unveil to us the face of the true Spiritual Sun,
Hidden by a disk of golden light,
That we may know the truth and do our whole duty,
As we journey to Thy sacred Feet*

Ancient translation of the Gayatri, one of the oldest mantras known to mankind. From the book "A treatise on Cosmic Fire" written by Alice A Bailey

***Welcome to five days of absolute co-creation
with Mother Earth.***

The Earth has a deep wisdom to share if we are willing to listen. Mankind has throughout time in its constant need for conquests and development abused Mother Earth to such a degree that we are on the way to our own destruction. We have long ago forgotten that All Living Things are here on Earth on the same terms, that we are all dependent on each other for survival. But Mother Earth is forgiving and once again, gives us a chance to change our ways. So now it is time once and for all that we as a race take a more humble approach to Cycle of Life and offer our co-creative work to the Source of Wisdom who is the Mother of us all. We have yet only seen glimpse of the larger picture which we as humans are but a small part of. This is truly great work, not only for our smaller communities but for the Earth as a whole.

"Dazing, fundamental and completely life-overthrowing. I definitely and with all of my heart recommend the workshop to anyone wishing to make a contribution to their environment and their fellow beings."
